BACKGROUND

In April of 2017 the State of New York created the Shared Services Mandate, requiring county executives to convene, and mayors and supervisors to join, countywide "Panels" to seek tax savings through new forms of cooperation among local governments.

The exploration of the advantages of shared services in purchasing has advanced well beyond initial interest in aggregating purchasing of office paper to include E-Procurement, procurement policy reform ("best value"), standardization of specifications among similar departments to aggregate bids for equipment (highway and police vehicles, LED streetlights), alignment of service contracts to facilitate joint bidding (recycling), and other areas. Enhanced management of procurement can potentially bring cost savings to virtually any governmental entity or department

The Rockland County Purchasing Division has formed a *Procurement Center of Excellence* to assist local governments and all public agencies to reduce the cost of goods and services through cooperative solicitations that combine the volumes and purchasing power of public and non-profit agencies within Rockland County, Statewide and Nationally.

The resulting contract from this solicitation will contain the appropriate language authorizing all Local, State and Federal government agencies to make purchases under said contract.

PURPOSE AND GOALS

The purpose and goal of this solicitation is to establish the most competitively priced contract for Firefighting Rescue Equipment & Protective Clothing available nationally, to state and local government firefighting and rescue agencies.

Many of the manufacturers brands detailed in this solicitation may have previously been awarded other government contracts. This solicitation will also contain target discounts which represent contract pricing that may be currently available or may have been previously available for each manufacturer. Respondents are encouraged to offer discounts greater than the target discount provided for in this solicitation.
