7. PRICING

7.1. Contract pricing shall remain firm for the **first twelve (12) month term of contract**. All renewal periods may be subject to mill increase or decreases with verification from the mill. Price adjustments must be supported by a general price increase in the cost of the finished supplies. Adjustments shall be made on the basis of the Producer Price Index (PPI) for paper, WPU09 and WPU0913, published by the U.S. Department of Labor, Bureau of Labor Statistics. Detailed documentation, to include a comparison list of the contract items and proposed price increases, must be submitted to support the requested increase.

7.1.1. Adjustments shall be established as follows: Following the first twelve months of the contract, a price adjustment shall be effected beginning the first month following the first twelve months of the contract and then every twelve months of the contract thereafter. The adjustment shall be based on the average percentage of increase or decrease in the average delivered price in the six months ending one month prior to the date in which price adjustments are effected. For example, if price adjustments are scheduled to be effected on March 1st, they will be based on the average percentage of increase or decrease in the average pricing from the preceding August through January as published by PPI.
