Please note, Section number for Price listed in Contract Award Notification Update dated January 20, 2023 was incorrect. The correct Section number is 3.6 Price. Reposting with correct Section number, noted in red font below.

Please be advised that the Inflation Reduction Act of 2022 reinstates the section 4611 Hazardous Substance Superfund financing rate (petroleum Superfund tax rate) on domestic crude oil and imported petroleum products, effective January 1, 2023.

As per the terms and conditions stated in Section 3.6 – Price of the contract, Contractors have the option of including the after-imposed tax as a separate line item at the price per gallon listed below for the fuel type. The tax per gallon was truncated to four decimal places from the 16.4 cents per barrel of the taxable fuel.

Table with 2 columns: Fuel Type, Superfund tax per gallon. Rows include ULSD 2D Regular, ULSD 2D Premium, ULSD 2D Bio (B5), ULSD 2D Bio (B10), ULSD 2D Bio (B20), and KERO (Blending).

Please note: Contractors may itemize fees, taxes, or other charges in an invoice, but the total price of the fuel and itemized charges must be equal to or less than the OGS posted price. The Superfund tax is the only allowable charge in addition to the total fuel price per gallon.

Also, please note the Contract Manager for the above referenced contracts has been updated to Sandra Fernandes. The Contract Award Notification has also been updated showing this change.
